| List of Illustrations | ix |
| Preface to the First Edition | xiii |
| Preface to the Second Edition | xix |
| Preface to the Third Edition | xxiii |
| Preface to the Fourth Edition | xxv |
| 1 Context of Traditional Ecological Knowledge | 1 |
| <i>Defining Traditional Ecological Knowledge</i> | 3 |
| <i>Traditional Ecological Knowledge as Science</i> | 10 |
| <i>Differences: Philosophical or Political?</i> | 13 |
| <i>Knowledge–Practice–Belief: A Framework for Analysis</i> | 17 |
| <i>Objectives and Overview of the Volume</i> | 20 |
| 2 Traditional Knowledge Comes of Age | 23 |
| <i>Emergence of Traditional Knowledge Internationally</i> | 24 |
| <i>Meanings and Significance of Traditional Knowledge</i> | 32 |
| <i>Cultural and Political Significance of Traditional Knowledge</i> | 35 |
| <i>Questions of Ownership and Intellectual Property Rights</i> | 40 |

| | | |
|---|--|-----|
| | <i>Practical Significance as Common Heritage of Humankind</i> | 42 |
| 3 | Intellectual Roots of Traditional Ecological Knowledge | 57 |
| | <i>Ethnobiology and Biosystematics: A Good Fit</i> | 58 |
| | <i>More on Linguistics and Methodology: How to Get the Information Right</i> | 61 |
| | <i>Exaggeration and Ethnoscience: The Eskimo Snow Hoax?</i> | 67 |
| | <i>Human Ecology and Territoriality</i> | 70 |
| | <i>Integration of Social Systems and Natural Systems: Importance of Worldviews</i> | 75 |
| 4 | Traditional Knowledge Systems in Practice | 81 |
| | <i>Tropical Forests: Not Amenable to Management?</i> | 83 |
| | <i>Semi-arid Areas: Keeping the Land Productive</i> | 88 |
| | <i>Traditional Uses of Fire</i> | 91 |
| | <i>Island Ecosystems—Personal Ecosystems</i> | 97 |
| | <i>Coastal Lagoons and Wetlands</i> | 101 |
| | <i>Conclusions</i> | 105 |
| 5 | Cree Worldview “From the Inside” | 109 |
| | <i>Animals Control the Hunt</i> | 111 |
| | <i>Obligations of Hunters to Show Respect</i> | 115 |
| | <i>Importance of Continued Use for Sustainability</i> | 121 |
| | <i>Is the Cree Worldview Shared by Other Indigenous Peoples?</i> | 125 |
| | <i>Conclusions</i> | 127 |
| 6 | A Story of Caribou and Social Learning | 131 |
| | <i>“No One Knows the Way of the Winds and the Caribou”</i> | 133 |
| | <i>Cree Knowledge of Caribou in Context</i> | 136 |
| | <i>Caribou Return to the Land of the Chisasibi Cree</i> | 141 |
| | <i>A Gathering of the Hunters</i> | 144 |
| | <i>Lessons for the Development of a Conservation Ethic</i> | 147 |
| | <i>Lessons for Management Policy and Monitoring</i> | 149 |
| 7 | Cree Fishing Practices as Adaptive Management | 155 |
| | <i>The Chisasibi Cree System of Fishing</i> | 157 |

| | | |
|----|--|-----|
| | <i>Subarctic Ecosystems: Scientific Understanding and Cree Practice</i> | 163 |
| | <i>Three Cree Practices: Reading Environmental Signals for Management</i> | 165 |
| | <i>A Computer Experiment on Cree Practice and Fish Population Resilience</i> | 168 |
| | <i>Traditional Knowledge Systems as Adaptive Management</i> | 173 |
| | <i>Lessons from Fisher Knowledge</i> | 175 |
| | <i>Conclusions</i> | 176 |
| 8 | <i>Climate Change and Indigenous Ways of Knowing</i> | 179 |
| | <i>Indigenous Ways of Knowing and New Models of Community-based Research</i> | 181 |
| | <i>Inuit Observations of Climate Change Project</i> | 185 |
| | <i>A Convergence of Findings</i> | 191 |
| | <i>Significance of Local Observations and Place-based Research</i> | 194 |
| | <i>Indigenous Knowledge and Adaptive Capacity</i> | 197 |
| | <i>Conclusions</i> | 199 |
| 9 | <i>Holism of Indigenous Knowledge, Complex Systems, and Fuzzy Logic</i> | 203 |
| | <i>Rules-of-thumb: Cutting Complexity Down to Size</i> | 204 |
| | <i>Community-based Monitoring and Environmental Change</i> | 207 |
| | <i>Indigenous Knowledge and Complex Adaptive Systems</i> | 212 |
| | <i>Local Knowledge and Expert Systems</i> | 216 |
| | <i>A Fuzzy Logic Analysis of Indigenous Knowledge</i> | 219 |
| | <i>Conclusions</i> | 223 |
| 10 | <i>How Local and Traditional Knowledge Develops</i> | 227 |
| | <i>A Framework for Development of Local and Traditional Knowledge</i> | 228 |
| | <i>Case 1: Mangrove Conservation and Charcoal Makers</i> | 232 |
| | <i>Case 2: Dominican Sawyers: Developing Private Stewardship</i> | 234 |
| | <i>Case 3: Cultivating Sea Moss in St. Lucia</i> | 236 |
| | <i>Case 4: Restoring Edible Sea Urchin Resources</i> | 238 |

| | |
|---|-----|
| <i>Lessons from Local Knowledge Cases</i> | 240 |
| <i>Local vs. Traditional Knowledge: Origins and the Time Dimension</i> | 242 |
| <i>Institutions and Knowledge Development</i> | 246 |
| <i>Conclusions</i> | 247 |
| 11 <i>Indigenous Knowledge in Context: Myths, Worldviews, Contemporary Applications</i> | 249 |
| <i>The Exotic Other: Limitations of Indigenous Knowledge</i> | 251 |
| <i>The Intruding Wastrel: Invaders vs. Natives</i> | 252 |
| <i>Noble Savage/Fallen Angel: Indigenous Conservation?</i> | 256 |
| <i>Seeking Universal Concepts of Conservation</i> | 259 |
| <i>Combining Traditional and Scientific Knowledge</i> | 264 |
| <i>Adapting Traditional Knowledge for Livelihoods in a Globalized World</i> | 266 |
| <i>Conclusions: Toward an Evolutionary Theory of Traditional Knowledge</i> | 272 |
| 12 <i>Toward a Unity of Mind and Nature</i> | 275 |
| <i>Political Ecology of Indigenous Knowledge</i> | 278 |
| <i>Indigenous Knowledge as Challenge to the Positivist–Reductionist Paradigm</i> | 285 |
| <i>Positivist and Alternative Approaches: Where Does Indigenous Knowledge Fit?</i> | 288 |
| <i>Learning from Traditional Knowledge</i> | 292 |
